DETAILED ACTION

Preliminary Amendment

1. Acknowledgment is made of applicant's Preliminary Amendment, filed 11 April 2005.

The changes and remarks disclosed therein were considered.

No claims have been cancelled or added by Amendment. Therefore, claims 1-20 are pending in the application.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-7 and 10-16, drawn to a data reading method and a semiconductor memory device with the corresponding data reading means, classified in class 365, subclass 145.
 - II. Claims 8, 9 and 17-20, drawn to a data writing method and a semiconductor memory device with the corresponding data writing means, classified in class 365, subclass 145.

3. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as having a data writing method or means that is different than that of invention II (and vice versa). See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II (and vice versa), restriction for examination purposes as indicated is proper.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

4. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
